SUBJECT: Brodsky Case

Monsignor Celli at the Nunciatura told me today that the Nuncio had raised the Brodsky case with General Galtieri last January when Brodsky was still in touch with his family. The Nuncio did not make reference to the contacts between Brodsky and his parents, but asked in general terms if General Galtieri could shed any light on what happened to Brodsky. The Nuncio was told by General Galtieri that he had no information on Brodsky.
